

Reinventing playground solutions to ensure no one is left out

By partnering with community leaders, academics, and playground-users, we create a fun and welcoming space for all. Stemming from a decade of research and development, our universal design meets the unique needs of everyone, regardless of age or ability.

INNOVATIVE AND INCLUSIVE DESIGN FOR EVERYBODY

61 million of us, or **1 in every 4 Americans**, has a disability. **Of this group, only 7% are wheelchair users, meaning the most common type of disability today is an invisible one.** Where most playground designers focus on merely physical disabilities, **Magical Bridge is currently the only playground also serving the 93% of those who have invisible disabilities.** Our designs incorporate the needs of children and adults with autism and sensory impairments, those with intellectual disabilities and visitors with hearing or visual impairments while still providing movement and socializing options for older adults. **Creating a fun place for the entire family to play together is what makes our playgrounds truly magical!**

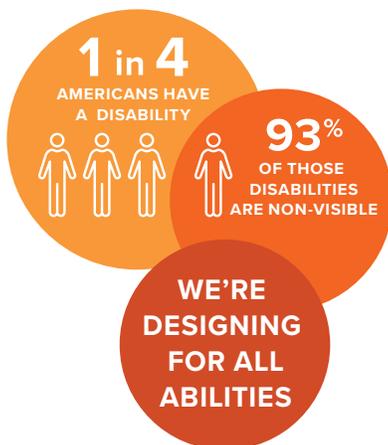

ADVANCING UNIVERSAL DESIGN PRINCIPLES

Leveraging universal design as a framework ensures that our playgrounds delight the widest range of abilities and ages. We engage with industry advisors, community members, and educators to implement human-centered design practices through a collaborative design process.

ZONES MATTER BECAUSE PREDICTABILITY MATTERS

Our play zones have carefully considered the guiding principles of universal design and are equitable, flexible, intuitive, and perceptible in use. Zones are easy to understand, regardless of one's experience, knowledge, language skills, or developmental levels. For visitors with autism and visual impairments, the predictability of a playground's layout is rarely considered, but critical in creating a safe and enjoyable experience.

A FEW OF OUR DESIGN FEATURES

Designed for All Ages and All Abilities

Auditory Features

Flat Soft Surfaces

Majority of Equipment Wheelchair Accessible

Retreat Spaces

Variety of Play Zones/ Organized Layout

Gentle Ramping Paths Throughout

Secure Perimeter Fencing

Dignity Landings on Slides

Imagination Play Areas

Magical Bridge Foundation and Playworld have partnered to offer truly inclusive public and school playgrounds. Today's "typical" school playgrounds still do not consider the unique play needs of all ages, all abilities, and all disabilities and we are changing that! Together, we are excited to offer a new and affordable community and school playground solutions around the country soon.

A MAGICAL SPACE

Our playgrounds not only enhance group and imaginative play but offer places to retreat from active play too. Kindness Ambassadors are often on hand promoting the magic of inclusion and kindness.

NATIONAL RECOGNITION

Honored to be the only public playground featured at the **Smithsonian Cooper Hewitt Design Museum** for advancing innovation of play for all abilities.

Building the nation's most innovative and inclusive playgrounds
